Professional Summary

A motivated Computer Science and Engineering graduate with strong skills in Java and Spring Framework. Experienced in developing efficient and scalable applications with a keen ability to solve challenges. Looking for opportunities in software engineering to apply technical knowledge and hands-on internship experience to deliver meaningful results.

Education

- **B.Tech, Computer Science**, LBRCE (2020-2024) - 8.88 GPA
- **Intermediate (MPC)**, AP Residential Junior College (2018-2020) - 9.3 GPA
- **SSC**, AP Model School (2017-2018) - 9.8 GPA

Technical Skills

- Core Java — C — Spring Framework — Spring MVC — Spring Boot — Maven

Soft Skills

- Dedicated — Problem Solving — Responsible

Projects & Internships

- **LoveCalculator** - Developed a Spring MVC-based web application designed to calculate relationship compatibility using predefined algorithms. Enhanced user engagement through interactive and user-friendly features.
- **Guess-Word** - Implemented an engaging word-guessing game using Spring Boot. Integrated a missing-letter mechanism to increase challenge and improve vocabulary skills for users.
- **StudentCRUD** - Built a comprehensive student management system using Spring MVC. Enabled efficient CRUD operations for managing student records with a structured database approach, streamlining data management.
- **Super Bank Of India** - Created an essential banking website leveraging JDBC technology. Supported fundamental functions such as withdrawal, deposit, balance inquiry, and account management, ensuring financial operations are user-friendly.
- **EAPCET College List Recommendation System** - Constructed a recommendation platform using both collaborative and content-based filtering techniques. Assisted students in selecting suitable engineering colleges by providing tailored recommendations.
- **Oasis Infobyte Internship** - Programmed an interactive CLI-based application, including a Number Guessing Game and an ATM Interface. Applied programming fundamentals to offer intuitive and user-friendly experiences.
- **CodeClause Internship** - Designed and deployed a personal portfolio website using HTML and CSS. Showcased technical skills and projects with a clean and professional layout, demonstrating web development proficiency.
- **House Price Prediction** - Generated a machine learning project using regression models to predict housing prices. Applied statistical analysis and data-driven decision-making to produce accurate predictions.

Certifications

- Java Programming MOOC (University of Helsinki) — Java Development (Oasis InfoByte)
- Web Development (CodeClause) — E-commerce & Tech Quiz (Flipkart)
- Java, Python, Problem Solving (HackerRank)

Co-Curriculars

- Innovative Model Presentation (VR Siddhartha Engg. College)
- Paper Presentation — Technical Quiz — Coding Competitions
- Skit Competition (2nd Place, Kruthi Fine Arts Club) — Kabaddi (College Level)

Achievements

- Secured 2nd prize in College Coding Competition
- Got NMMS Scholarship in Class 8
- Only student from our School to get select for SHAR Educational Tour in Class 10
